## Nameoki to Seek Sewer Hookups in Industrial Area

The Nameoki town board took action Monday night to set up negotiations with developers of the new 9000-acre Industrial Park area north of Granite City to learn whether or not sewer systems to be built in the area may be engineered to include connections for Nameoki township lines.

Harry Briggs, supervisor of Nameoki township, submitted a resolution which provided for a committee of town board members to meet on the matter with representatives of the Tri-City Regional Port District and also provided that the township make available to the Port district or other developers of the industrial park all of the township sewer plans, studies and engineering reports concerning sewerage and sewage treatment systems.

The resolution was approved by the board. Briggs said the board committee will be named later to meet with those persons handling the industrial development area, part of which includes sections of Nameoki township.

Briggs said that development of the industrial park will entail a rather extensive construction of sewer lines and sewage treatment facilities.

**Plan Conferences**  
"It is possible," he told the board, "that we might be able to hook into some of their lines or their treatment plants for that part of Nameoki township near the industrial area."

He said passage of the resolution would constitute a formal request to discuss the matter with the proper persons.

Briggs reported at the meeting Monday night that a report on the State Park Place sewer plans has been sent to the Urban Development Agency to determine the extent of a federal grant for which Nameoki township will be eligible when it proceeds with construction.

The Urban Development Agency has replaced the Federal Home and Housing Finance Agency with which the township dealt previously on the Nameoki sewer project. No formal application for a grant has yet been made, Briggs said.

After hearing a complaint from Frank Melnic, Rural Route One, Granite City, concerning discoloration of Horseshoe Lake, the board instructed township attorney Nick Vasiloff to write the Illinois State Sanitary Water Board to learn what is being done to correct the situation.

The discoloration results from a new chemical process used by Granite City Steel Co. in the hot strip mill. Melnic told the town board that he understands a chemical analysis of the water effected indicates that it could kill vegetation in the lake over a period of time and thus kill fish. In other business bills were approved. The next meeting will be Feb. 21.

## City's Aerial Ladder Truck To be Delivered in 180 Days

Within 180 days, Granite City homeowners, the city needs a full-time fire inspector, Fronabarger explained. This also would mean establishment of detailed records of stepped-up inspections in commercial areas.

The fire chief said he now is preparing for the city council a list of requirements needed to qualify for a Class Four rating that would benefit homeowners as well as owners of commercial properties.

The city is close to a Class Five designation if it complies with the hiring of a full-time fire inspector and the records system, Fronabarger said.

Notification of the city's nearness to the lower fire classification with an estimated 5% reduction in fire insurance rates for mercantile, manufacturing and public buildings was received from the Illinois Inspection and Rating Bureau.

The bureau's superintendent, A. H. Gent, said a Class Four rating would provide insurance savings to house owners as well as commercial building owners.

Fire Chief Fronabarger estimated there are 16,000 dwellings in the city and that with a Class Four rating, the annual savings on insurance costs would be \$50,000.

#### Suggests City Slap \$100-a-Day Fee on Water Co.

A charge of \$100-a-day for East St. Louis & Interurban Water Co. for use of city streets and alleys was proposed in lieu of a franchise in Granite City.

The recommendation was made at Monday night's council meeting by Alderman Moerlein, who remarked the city receives franchise benefits from the power and telephone companies, but has been unable to negotiate a franchise with the water company for over a decade.

Moerlein asked that the city's legal staff study state laws to determine if the charge can be made. "The \$100 a day may be a little high," he commented. Moerlein also pointed out that when the city was seeking data on water connections to set up a billing program for the sewerage treatment plant, the water company charged the city \$500 for the information.

Permission has been granted the water company by the state department of public health to extend an eight-inch water main along Monroe street south of 22nd street a distance of 100 feet to install a fire hydrant for the expanding Air Products Co.

Alderman Nann complained the water company had dug two holes in recently paved Nevada avenue that had cost the city \$40,000 in motor fuel tax funds. He called for a closer watch on the issuance of excavation permits, saying none had been issued for the

#### Local Boy Scout Heads Ill. Labor Dept. for a Day

Stephen Lewis, 14, son of Judge and Mrs. Austin Lewis, 1624 North street, Madison, was one of 32 Eagle scouts from Illinois Boy Scout councils who celebrated State Citizenship Day Tuesday in Springfield.

He met Gov. Otto Kerner and other state officials, and served as honorary Illinois Department of Labor director.

The three-day event ending Tuesday was held in conjunction with Boy Scout Week and the 50th anniversary of scouting. Each scout and explorer, selected by their council for outstanding leadership qualities, had an opportunity to take over a state office or appointive office for a day.

The stay in the capitol city was under the guidance of Citizenship Day Chairman Richard Mills. Working with him were A. L. Pezman, judge of the Court of Claims in Quincy, and John A. Trolke, Illinois Youth Commission chairman.

Each officeholder was sworn in by Illinois Secretary of State Powell. Gov. Kerner and Powell signed the commissions presented to Lewis and his fellow scouts.

Scout Governor Thor Thompson of Park Forest submitted a report on the progress of scouting in Illinois to Gov. Kerner.

#### Scout Sunday To be Observed

Special Boy Scout services will be held in many Quak-City churches Sunday as part of the 50th anniversary observance of the Boy Scouts of America, according to Rev. Alfred Bais, chairman of the Cahokia Mound Council, a church relations committee and pastor of Hope Lutheran Church.

Many churches that sponsor Cub Scout packs, Boy Scout troops and Explorer posts will have their own units taking part. Rev. Bais said, Scouts in units sponsored by schools and other organizations are to attend the church of their faith in uniform with their parents.

"Although scouting is non-sectarian," the minister said, "the Boy Scouts of America believe that no boy can grow to be a successful manhood without a firm belief in God." Last year, 50 percent of the council received the God and Country Award of the Protestant Church, the Protestant Award of the Lutheran Church, or the Ad Altare Dei Award of the Catholic Church.

Sixty-three members of Rebekah lodges of Alton, Granite City, East St. Louis, Namekoi, Waterloo and Madison adjourned to the church for refreshments of punch, coffee, sandwiches and cookies, served by a committee consisting of Mrs. Ruby Wood, Mrs. Louise Ebersold, Mrs. Ophie Smith, Mrs. Geraldine Stein and Mrs. Verna Willman.

## Levee Trustees Deny Split... 'All Unified'

Levee board trustees made a formal denial Wednesday that their membership is split politically and asserted, "we are in complete harmony and completely unified."

The statement, made by Board President Lawrence Tolar, was the opening order of business in Wednesday morning's regular monthly levee district board meeting and was directed to the Granite City Press-Record which published a news item on Monday that Madison and St. Clair County trustees were hearing a break over administration policies.

The Press-Record had reported the defeat of a resolution submitted by Tolar last Monday

which, if approved, would have permitted the issuance of levee district checks bearing the original of only one of three required signatures. The other two signatures could have been placed on checks with rubber stamps.

The report also referred to rumors that Madison county members of the board — William "Mike" Ebersold of Venice and Joseph A. Grant of Granite City — who voted against the rubber stamp resolution — had been taking a more critical attitude of administration policy.

As the meeting opened Wednesday, Tolar remarked that he wished to point out that there was "no split" among the members and that the defeat of the rubber stamp resolution last Monday "was just a difference

between members over a board matter."

Tolar said that "we are completely unified." Turning to Ebersold and Grant, he added: "Are't we, fellows?" Ebersold replied that "we are all in unity." Grant made no reply.

George Duff of East St. Louis, fifth member of the board, was absent for the second straight time, however. He did not attend last Monday's meeting.

There have been reports in political circles that Duff had expected to be elected president of the levee board in the December meeting and that he was disappointed that Tolar had been re-elected to that spot. Duff could not be reached for a statement Tuesday "was just a difference

secutive shot to tie the score at 33-33. Hentzel scored on a jump shot. The Warriors' Granite City lead, and Lusk made both free throws on a Bill O'Neill foul with two seconds left to tie the score at 49-49.

In the first half, Madison hit 50% from the floor, and Granite City shot 40%. Both teams had 13 chances at the charity stripe, but Madison missed seven and the Warriors missed only four. Paul Bauer scored 14 points in the second period to total 19 at the half. Turner, who had scored five of his five free throws in the first period, was scoreless in the second quarter.

Ripka and Hentzel paced the Warriors' second period, with nine points. Wortham had netted seven points as the Warriors' high scorer in the first half.

The third period saw Madison shoot key up with the Madison sharpshooters. Granite City had 51-49 score at the end of the period. Lusk dominated the boards, and the Warriors' defense held the Granite City back. Turner hit his first field goal of the game with 4:59 remaining in the period and tied the score at 51-51.

**Trojans in Command**

Madison went ahead 49-47 on a jumper by Granite City's first star, Jerry Turner, who had 14 points. The Trojans were in command from there. Lusk made a sensational pass to Turner, who hit on a jump shot to lead the Trojans 53-49.

Lusk's brother, sophomore Gary, took over for the scoring for the Trojans and sank three left-handed jump shots. The Trojans brought the roof down on the Warriors. Madison then held a 53-47 lead.

Ripka scored two charity shots and a jump shot, and Bill O'Neill added one free throw to close the first half.

**Lusk Top Scorer**

Paul Bauer scored the night with 10 field goals and five free throws for 25 points and high point honors. Ripka scored eight points, and Granite City had 22 points. Turner netted eight points, with 12 assists and 11 rebounds.

Madison finished with 14 points for Granite City while Gary Lusk also had 14 points.

In the rebounding department, Madison pulled down 51, while Granite City cleared only 24 off the boards.

The Warriors' performance with 14 rebounds surprised.

## Trojans Tangle With Highland; Venice at Breese, GC at Home

### GC Trio Wins 1st-Round Golden Gloves Fights

John Spengler, Phillip Polk and Gary Huffman of Granite City scored first-round wins in Golden Gloves tournament action at the German House in St. Louis Tuesday night.

Gene Joyce, Ronnie Stump and Verron Hill of Granite City lost their opening fights.

Joyce appeared to have things in his control after scoring a first-round knockdown over Cleo Johnson of Franklin A. C. in the 147-pound sub-novice class. But Johnson rallied to deck Joyce in the second and third rounds and finally outpoint him for the decision based on a crowd of 1125.

Spengler gained a decision over Russell Aitchley of Troy, Mo., in the 135-pound class of the novice division.

Huffman stopped Franklin's John Williams with a TKO in 58 seconds of the third round in the 126-pound class of the sub-novice division. Polk defeated Mike Stief of Franklin in the 135-pound

Madison's Trojans will be looking for their second Midwest Conference win over Highland's Bulldogs at Highland Friday night.

In other action involving Quad-City teams, Venice plays at Breese and Granite City is idle until Saturday, when it will host the Wood River Oilers.

A Trojan victory would nearly force a showdown battle between Madison and league-leading Cahokia for the conference championship.

The Bulldogs fell to the Trojans 85-78, Madison early in January. Then the Trojans were on the "short" end of things; their tallest player was Steve Geroff at 6'1".

Highland's lineup reads like Michigan's: Craig Manwaring, 6'7", Tom Campbell, 6'5", and Dean Burk, 6'7". For added measure, Cliff Talley can throw Terry Jakiel, 6'3", or Dennis Warning, 6'2", into the game.

But Madison will counter with Paul Lusk, sensational rebounding artist and a member of last year's Press-Record All-Midwest Conference team.

88 Points in Five Games

Lusk has scored 88 points in his last five ball games. He has pulled down an average of 16 rebounds a contest, and has been extremely accurate on his free throw shooting.

Teamed up with area scoring leader Dale Turner, Lusk's high-scoring little brother, Gary, and forward Neil Podobe, he helps make the Trojans tougher than they were in the first Highland encounter.

A Highland win would save a little prestige for the Bulldogs after an already disappointing season.

Meanwhile, at Breese, the Venice Red Devils will be trying to remain in contention for at least an MCM Conference title.

Venice's win would give the Red Devils a chance to tie the Minutemen for the title, if Bunk Hill loses one of his five remaining games.

Breese Better at Home

Breese plays better at home than on the road, it is shown by its record of 5-6; it has won four and lost one on the home court.

In a previous game, the Red Devils humbled Breese 84-69 as Percy Dillon and Rich Essington paced Venice.

Granite City's Wood River-Granite City game will pit two of the most improved game teams in the area against each other.

The Oilers broke a seven-game losing streak to beat Southwest Conference foe Alton and Edwardsville last week.

Warriors also beat Edwardsville over the weekend and upset the East St. Louis Flyers.

Granite City defeated the Oilers 70-61 in an earlier contest between the two teams at Wood River.

## Batboys, Er, Batgirls For SIU Baseball Team

Baseball people have been known to install retractable ball containers near home plate, and build elaborate scoreboards and Astrodomes, but "Rollin' Joe Lutz, new baseball coach at SIU in Carbondale, has a new twist on the sport.

Starting this season, Lutz will use female batboys, er, batgirls, at Saluki home games.

The batgirls will escort umpires to their stations, take baseballs to the plate umpire, tote bats and all that sort of thing.

Lutz said the idea is to whip up student interest in SIU baseball, and any consequent uplift to team morale will be an added bonus.

What next?

## Fraudtort Hopes to Get Go-Go Girl Ruling Today

Madison County Sheriff Barney Fraudtort, who recently delivered stern warnings to five county area tavern operators about the ban on selling liquor to minors, closing hour violations and "Go-Go" girl performances, said he expected to obtain a ruling on the legality of Go-Go girls in a meeting with the license committee of the Madison county board of supervisors this afternoon.

Sheriff Fraudtort recently informed the license committee of the five places and was instructed by the committee to call in the operators of the places to inform them that unless they comply with the law their places would be subject to license hearings and the possibility of suspensions or revocations.

The sheriff said he called in the operators of the places and told them they must comply with the county liquor control ordinance.

As for the legality of Go-Go girls, Fraudtort said that a legitimate Go-Go girl dance is one thing, but that "the way some taverns have them they permit to see who can undress the most and it dissolves into a serious problem. It leads to prostitution and a lot of other troubles."

### Requested Opinion

The sheriff said that he had requested the office of State's Attorney Joseph Bartylak to give him his office opinion as to whether the Go-Go girl dances are legal about two weeks ago, but that Bartylak had been ill and had not yet given him the opinion.

He said Bartylak was expected to attend today's meeting of the liquor license committee and was expected to get the opinion during the meeting.

According to the sheriff, taverns whose operators were issued warnings included Curved Inn Tavern, just outside Granite City; Gene and Woodies Hide-away Lounge, Route 67, Calypso Inn, near Collinsville; Dan's Den, Collinsville road, and Jug's Night Club, north of Granite City.

"Our big problem is the lack of manpower," the sheriff said. "We don't have enough men to put someone in every place just to keep watch over what goes on."

In addition, he said, the definition of legal limits as to involved, such as in the case of Go-Go girls.

"We need a specific set of regulations to go by, so that we can make a case stick in court after making an arrest," the sheriff added.

## City Gives Up 3 Parking Meters for Safety Sake

Granite City is sacrificing three of its busiest parking meters for safety sake, and the meters are to be removed from the hazardous 20th street and Delmar avenue intersection—a scene of numerous vehicle crashes.

The parking areas of the missing meters are to be plainly marked for no parking in order to provide motorists traveling along Delmar avenue with a clear view of the intersection on 20th street.

Normally, the intersection is parked full with delivery trucks or the vehicles of patrons at Black's Bakery or the public library. Police are to keep a close watch to prevent parking violations. The violation fine will be \$3 if paid within 24 hours after issuance or \$5 if later.

Two meters are to be removed from the south side of 20th street west of Delmar avenue alongside the bakery and one from the north side at the corner.

## One-Way Sts. Stalled

Council members haggled a bit over placing the one-way street revision ordinance on second reading. Alderman Nomi, chairman of the Ordinance committee, refused to change his motion for final passage.

A suggestion was made by Alderman Basarich to vote down second reading in order to place the bill on final passage, but Alderman Moerlein, a former mayor, cautioned the councilmen that if the ordinance would be down for second reading, it would then be "dead."

## Trespass Charges Dropped

Electrical work at the city hall, including new mercury vapor lights at the three street entrances, was awarded to a Belleville firm by Granite City council members. The firms was lower bidder on two projects.

The six lights are to be installed at a cost of \$1194 by Weber Electric Co., compared to a \$1465 bid by a 1243 address bid by R. Dron Electrical Co. here.

The Weber firm also submitted the low bid of \$105 to install conduit for emergency wiring on the first floor of the city hall building. Other bids were \$294 by Dron and \$316 by Rite Electric Co.

The conduits will give electrical power to the police department in the event of an emergency or disaster. A civil defense generator is to be installed in the city hall boiler room to supply emergency electricity.

A \$220 proposal by Bergschneider Cabinet Co. to install a new counter top in the office of clerk and treasurer before tax payment time was given approval, and authorization was given to get bids for purchase of a commercial-type vacuum cleaner for use at the city hall. A suggestion that bids be sought for the cabinet top was not accepted.

Bids for desks and chairs for the inspectors' office were referred to the City Hall committee for study, as was a single bid for installation of tile flooring in several city hall offices. The desk and chair bids were submitted by Graham's Book store and Triangle Typewriter & Supplies.

# Federal Agency Suggests Resident Planner be Hired by GC

A recommendation by the Federal Housing & Home Finance Agency that the city employ a resident planner was taken under advisement Monday night by Granite City council members.

The communication from John P. McCollum, regional administrator of the Chicago office, was referred to the City Planning Commission for study and recommendation.

McCollum stated it was difficult for the FHFA to determine how a city of the size of Granite City could operate effectively without a resident planning staff. He added that the Washington office noted the need upon receipt of the city's workable plan for community improvement.

He suggested further discussion of the possibility with Mayor P. Partney, pointing out the use of citizen committees had caused problems in other municipalities, but that perhaps through the use of subcommittees or a representative group of committee chairman could manage the planning without loss of coordination.

In a separate letter, McCollum advised the city that while the city's workable plan for community improvement in 1966 has been certified that recertification next year was not guaranteed unless progress was reported. Qualification for federal funds is based upon recertification.

He noted that the city's step-up in code enforcement was "in the right direction" and that the increase in condemnation of dilapidated properties was favorably received, but that the city would need more full-time inspectors for code enforcement next year and also would need to establish an agency for relocation of families displaced under clearance programs.

Other suggestions were a detailed follow-up on the updating of the city's 1956 master growth plan to be completed in the near future and reports on the community betterment program, including city beautification and

neighborhood cleanup committees that should operate on a year-around basis.

McCollum said the city is to supply the agency with a map showing areas where door-to-door inspections for code compliance are made in 1966 and areas to be covered in 1967 and 1968. The need for a community-wide program of education for code enforcement also was stressed.

**Studying Mobile Home Courts**  
Council members decided to give further study to the City Planning Commission's recommendations for modification of the city zoning code to permit the establishment of a mobile home court and to permit professional offices in residential areas along major thoroughfares, such as Madison avenue and Nameoki road.

The commission had turned down a request for a mobile home court in the vicinity of Glenview subdivision, and now a location is being considered that will be in the West Granite area beyond the planned location of the Great Riverfront Roadway.

The recommended regulations would specify a 10-acre tract with suitable drainage, sewers, utilities and other services. Several council members agreed the city has need for such a development and to continue to study the matter. They did not want such projects in their wards or in outlying areas that later would be surrounded by homes.

**March 1 Target Date**  
A target date of March 1 has been set by the council's Special Planning committee for the city's new sewage treatment plant, scheduled to go in operation this spring.

Alderman Moerlein said the city has received one oral and three written applications and that interviews are to be started immediately.

The hiring of two clerks to prepare a property ownership ledger for billing new residents with the mayor and the Personnel committee. Through advertisements, the committee received 39 applications and in weekend screening

reduced the number to five. Alderman Thompson, chairman of the committee, said his group is ready to make recommendations to the mayor.

Urgency in the hirings was stressed by Moerlein and Comptroller John Dooher, who said about 10,000 listings must be completed for the ledger. Data is to be obtained from the office of Tax Assessor James Barton to cross-check with information which the city secured from the East St. Louis & Interurban Water Co. at a cost of \$500.

Dooher said setting up the ledger would take several months, and he pointed out to council members that equipment would be needed for treatment plant billing. The charge is to be 90 cents a month per household with larger monthly fees to be paid by businesses and industries based on volume. The city is building the sewage treatment plant at the Granite City Army Depot through a \$1,225,000 revolving bond issue and a grant of federal tax funds.

Council members were notified by Alderman Whitmer, chairman of the Police committee, of a meeting at 7:30 this evening with members of the Board of Fire and Police Commissioners for possible changes in rules and regulations and the authority given to the commissioners. Whitmer said the changes are to be designed to give the commissioners additional powers within the scope of state laws.

Being considered is a ruling that would permit police and firemen to work at other jobs on days off duty. Whitmer said the rules agreed upon by council members would be referred to the city attorney to prepare in legal form.

**New Police Station**  
The Personnel committee also is to interview architects to design a new police station and magistrate court building to be located on the city property adjacent to the main fire station, 23rd street and Madison avenue. Police committee chairman

**"I saw a Beast rise up out of the Sea"**  
Will be the subject of a special sermon by C. M. O'Guin at Trinity Tabernacle, next Sunday, Feb. 13th—7:45 P.M.

The "sea of troubled humanity" has the stage all set for the appearance of the superman the Bible tells about. At the feet of the world's greatest Bible exegetes, and by his own research in Palestine, the speaker was prepared to give this message. The hour is upon us when the fine print in the Prophetic Time-table should be read.

REV. C. M. O'GUIN  
A recent copyrighted article circulated across America advocated that each person be given a single number to be tattooed on the forehead or in the hand to eliminate other cards. This would be known as the "all-purpose" number!"

### Off-Campus Housing Meetings to be Set

The housing office of the Southern Illinois University-Southwestern Campus is contacting house-holders of the area to enlist their aid in implementing resolutions by the SIU board of trustees concerning off-campus student housing.

Certain standards set up by the board must be met for a private residence to be classified as an "Accepted Living Center," and single under-graduates not residing with their parents or guardian are permitted to live only in such accommodations.

The resolutions cover such areas as safety, sanitation, health and recreation; supervision; and an environment which is conducive to good study conditions. In addition, the housing must be limited to university students and must be available regardless of race, color, religion or national origin.

The same minimal standards are encouraged for graduate students and married undergraduates.

SIU-SW Campus officials expect to announce within a few days the times and places of a series of meetings at which house-holders will be invited to discuss the renting of accommodations to students.

## Kiwanis Club Initiates Two

Two new members were initiated Monday evening for the Granite City Kiwanis Club by Lt. Gov. Basil Compton of East St. Louis, during the divisional executive's annual official visit to the local service organization. Those initiated were Donald Russell, a salesman with Miller-Wolf Realty Co., and Bonard Maples, who is employed at the American National Bank. The latter, a charter member of the Granite City Kiwanis, has been unable to attend for the past few years due to conflicting work schedules.

Club president Peter F. Jellen presided at the dinner meeting held at the Rose Bowl restaurant, with 16 attending. The invocation was given by Melvin T. Gillie, vice-president.

Compton commended the local group for a consistently high attendance record and for past services in the community. He also urged all members to work diligently during the club's current membership drive.

The Division 14 official reiterated the 1966 objectives of Kiwanis International and the Illinois-Eastern Iowa District and requested the club to send delegates to the July International Kiwanis convention in Portland, Ore., and the district conference in September at Chicago. Plans were completed for a ladies' night to be held Monday at the Rose Bowl and for an appreciation dinner for the Kiwanis members of the Granite City school system.

## Maryville Rd. Project Bid Date March 15

A March 15 bid date has been set for the joint county-city Maryville road widening and improvement project, it was announced Monday night, to the Granite City council by G. H. Sternberg, chairman of the Street Committee.

The chairman said the county highway department set the date for the project which is to be carried out with motor fuel tax funds allotted to both the county and the city. The council adopted a resolution requesting an allocation of \$4021 MFT funds from the state for the purchase of needed right-of-way within the city limits. The acquisition has been accomplished.

The widening and paving project in the city is to extend from Pontoon road to the north city limits, and the county is to carry out the improvement from the city limits north to old U. S. Bypass 66-40, west of Mitchell.

## Praises Accomplishments

Sternberg praised the accomplishments of Leo Konzen, assistant city attorney, and B. C. O'Neill, appraiser and negotiator hired by the city, for their quick work in acquiring the Maryville road right-of-way on short notice. He added that a

praise also was due Konzen and Horace Calvo, assistant to the state attorney general, for their work in clearing encroachments along the north end of Namooki road.

In other action Monday night, the council adopted an ordinance prohibiting all encroachments along Namooki road from Edwardsville road to the north city limits. Referred to were signs, fences and buildings or anything else that might impede traffic. Fines for violations would amount to \$10 to \$300.

Illinois Power Co. was given permission to relocate 160 feet of gas line along Namooki road in the vicinity of Clark avenue where a storm water drainage line is to be constructed in connection with the Namooki road improvement project.

## Budget Work Begins

Initial preparations for a 1966-67 budget for the street department was reported by Sternberg, who said major items of equipment being considered for purchase include an air compressor, a snow plow for city trucks, a snow-type mechanism for tree trimming and a brush grinder for tree limbs.

Street Supt. Warfield suggested a allocation of funds for snow removal also be included in the budget so as not to take away from other functions of the department.

Sgt. Leal, who has served with the Army for 13 years, will be in the Center's Support Coordinating Office of the Directorate of Supply. He is married and lives with his wife and two children.

Specifications for work to be done by a consulting engineer for the city are to be prepared by the Street Committee and submitted to three interested firms. Action on the employment of an engineer is expected within a short time, it was reported.

**Prepare for Summer**  
Preparing for summer street maintenance, the council adopted a resolution requesting \$10,000 motor fuel tax funds from the state for arterial street work throughout the 1966 calendar year.

Bids are to be sought for installation of new sidewalk and for sidewalk and curb replacement during the next fiscal year which starts May 1.

Authorization was given for the city's supply of gasoline to be purchased from an Edwardsville distributor, Lawson Mobil. The firm bid 22.6 cents per gallon on premium gas, compared to 23.9 cents which had been paid, and 18.48 cents for regular compared to the previous price of 20.4 cents.

Also authorized was preparation of a resolution calling for fire hydrants to be placed in the new Anchorage development for the elderly. The area was surveyed for locations by Curtis Donley, assistant fire chief.

A letter was received from E. W. Nixon, general manager of the Norfolk & Western Railroad, advising the city that crossing delays caused by classifying and switching freight cars in Granite City in recent months have been eliminated and should no longer pose problems for vehicular traffic.

He also added that at the city's request, repairs to the firm's crossings have been undertaken.

### Albert Wilson, Trades Council Officer, Dies

Albert Johnson Wilson, 60, of 2450 Delmar avenue, an officer of the Trades Council and Labor Board and a painter for the Granite City school district, collapsed and died of an apparent heart attack at 4:15 p.m. Tuesday shortly after taking his nephew home from school.

A short time before his death, Mr. Wilson, who was on his scheduled day-off from work, had picked up his nephew, Charles Stanley, 16, and Alice Marie, 12, children of Mr. and Mrs. Charles J. Rodell, 9 Del Rio drive, and took them home.

He entered the house with them and several moments later, after requesting a glass of water, he collapsed. The youngsters were taken to the house at the time. The Rodell youth summoned an ambulance and Mr. Wilson was pronounced dead at St. Elizabeth Hospital at 4:15 p.m.

Born in East St. Louis, Mr. Wilson had resided in the Quad-Cities for about 45 years. He had been employed as a painter by the Granite City school district for the past ten years. He had served as guard for the Tri-Cities Trades and Labor Council for more than a decade. He was a member of Painters' Local 120.

Mr. Wilson was a four-year Air Force veteran of world war II and had participated in the invasion of Italy. He was preceded in death by his wife, Blanche, on Oct. 8, 1964, and by his parents, Mr. and Mrs. Port S. Wilson of Granite City.

Besides Mrs. Rodell, he was survived by another sister, Mrs. Ralph (Alice) Kalert of Casey, Ill., formerly of Granite City, and a second nephew, Richard Trollett, also of Casey.

Funeral arrangements are given in today's obituary column.

### Auto Hit from Behind

An auto driven by James E. Frohardt, St. Louis, was struck from behind by another driven by Mabel Strunk, Edwardsville, as he was observing a stop sign on 22nd street at Madison avenue Wednesday morning.

son school system. Maeras, brother of Madison Mayor Stephen Maeras, a power in the dominant Venice township political machine, is chief administrative deputy circuit clerk under Willard Portell of Granite City. Musso, of Edwardsville, is completing his first term as treasurer. He served as sheriff for a term previous to that. Miss Hotz, also of Edwardsville, has been county clerk since 1942.

### No New Petitions

Though other candidates have obtained Democratic petitions for county offices, there were no additions this week, according to the county clerk. March 21 is the opening filing date.

The committee also endorsed: Lloyd "Curly" Harris of Granite City and Leland J. Kennedy of Alton for state representative from the 55th representative district; Paul Simon of Troy for state senator from the 53rd senatorial district.

Charles T. Wilkins of Edwardsville for state superintendent of education; a new pair of state senators; Melvin Price of East St. Louis for congress from the 24th congressional district; Paul M. Douglas for U. S. senator.

Christ Costoff of Madison, Robert M. Miller of Alton and Nelson Hagman of representative committee from the 55th district, Alvin G. Fields of East St. Louis as state central committee man from the 24th district.

### Other Endorsements

Also endorsed were George Shipley for Congress from the 23rd district; William Lyons of Gillespie for the state senate from the 52nd district; Charles Ed. St. Louis for state representative from the 53rd district; William H. Jenkins for state central committee man from the 3rd district; and Joseph G. Barrell of Highland representative committee man from the 3rd district.

The county Democratic party also will elect 184 precinct committeemen during the primary election.

### School Zone Arrest

Sheriff Heineman, 1412 Oakland avenue, was arrested at 4 p.m. Tuesday on a charge of driving more than 20 miles per hour in a school zone at 26th and Madison avenue. He was summoned for a hearing by Feb. 24.

### 'Junker' Autos To Be Taken From Lots in Madison

'Junker' automobiles left in lots or yards in the city of Madison will be removed, Mayor Stephen Maeras announced at a city council meeting Tuesday night.

He said the current city ordinance providing controls over the hundreds of junk cars parked in the city is not adequate and the city cannot remove the old cars and charge the owners for fees incurred, the mayor added.

During the short meeting, the city legal department was instructed to file liens against property where buildings recently were razed by the city. The liens are intended to pay for costs of the work which is to be filed as all bills are received.

One bill approved Tuesday night was a \$300 lien for Harry H. Marshall, Alton attorney, who was a court-appointed guardian ad litem in the interests of Robert Zurlinden, whose property in the 1400 block of Third street was razed. Two other bills were razed were on Reynolds street.

### Gas Regulator Station

A request by Illinois Power Co. to establish a gas regulator station on McCambridge avenue on a 100-foot plot north of Edgewood road was approved. A report by the city engineer showed it will not affect the McCambridge avenue improvement project.

Permission was granted to Rev. Larry Hood, pastor of the Church of Christ, 1339 Fourth street, to place a \$200 sign for the sale of cuff links valued at a total of \$800 and several foreign and old coins.

All of the youngsters were referred to Coordinated Youth Services.

A runaway boy from West Frankfort, 13, was turned over to Franklin county authorities this week after he was arrested at 1:40 a.m. Sunday at the Belleme Village Shopping Center in a stolen car. He had admitted stealing two cars in West Frankfort and another in Marissa. His probation officer was notified.

### Retailers Told

omment of the recently announced billion-dollar industry park. "We can go on and grow, or we can sit and sulk," he added, pointing out Quad-Cities families are living in one of the top ten areas in the country rated by family income. He urged the retailers to keep pace with the community growth and to proceed rapidly with the proposed redevelopment of the downtown district.

The guest speaker placed emphasis on merchants working with city officials, doctors, lawyers, industrialists to promote the development and growth of the Quad-Cities.

"Sure, you're going to find it necessary to compete a mong yourself, but you'll need to pull together to develop and develop the entire Quad-Cities. Without people, you're dead," Meek said.

The state retailing president said he has been familiar with the Quad-Cities area for 42 years and has seen many changes. He recalled that merchants have weathered many ups and downs, but that at the present other areas, such as St. Louis, Alton, Belleville and others, are working at top pace to get the local business, industries and people.

Meek suggested the retailers keep alert to pending legislation on both national and state levels and to keep their Congressmen and Legislators informed of opinions.

Special stress was made on increasing business volume to keep alive. Meek said that a 15% loss in volume for some merchants would put them in the red for 1966. You'll have to keep your volume going up and keep the government out of your hair if you're going to benefit from volume.

To get added volume, he pointed out, "You'll have to get more people into the area. People want big stores and they want the little stores with the little guy with personality. You need both."

"But you have the responsibility of making the physical appearances of your business areas attractive and of cooperative to attract people to live in your community."

The state retailing official also said the local merchant can no longer depend on the loyalty of customers, because of the large number of shipping areas within easy access by auto.

"You must be for area development," he emphasized.

The invocation and benediction were given by Rev. Carl Cross of the Westminster Presbyterian Church.

# Area Wedding is Featured in Book

Last year's wedding of a Granite City girl, the former Rosemary Calvin, and Robert Eck of Glen Carbon, that was covered by a Time-Life publications photographer, is being featured in a Time-Life special report, on sale on news stands for \$1.50.

The couple was married at St. George's Catholic Church in Glen Carbon, and events leading to the wedding, the ceremony and honeymoon and settling down in a home in Edwardsville are featured on 10 pages with 14 pictures. A picture of the couple also appears on the back cover.

Mrs. Eck, 18, is in training at St. Elizabeth Hospital for a practical nurse position, and her husband, also 18, is an architect student at SIU-SW Campus. The article is entitled, "Early Marriage: Two Teens Take the Big Step."

# Robins are Arriving

Mrs. W. L. Arnold, 716 Twenty-sixth street, reported yesterday morning she saw a robin in the yard at her home.

The early bird was among the first spotted this year in the Quad-Cities.

# One Divorce Granted

Sharon Kay Sawyer, Granite City, was granted a divorce from Floyd Thomas Sawyer, Granite City, Wednesday in the local division of circuit court by Associate Judge Austin Lewis. They were married Jan. 11, 1963, in St. Louis, and separated last May 21. Adultery was charged. Custody of three children was given to the mother. The father was ordered to pay \$30 per week child support and to provide a household with utilities paid.

# Larry's Charge Filed

Larry L. Briggs, 3207 Erie drive, was arrested at 6:35 a.m. Wednesday on a speeding charge at East 28th street and Namekoi road. He was summoned for a hearing by Feb. 23.

# Levee Board Sells Another Bond Issue Without Bids

Trustees of the East Side Levee & Sanitary District approved Wednesday morning the sale of another \$200,000 worth of revenue bonds for its new sanitary sewage disposal system, and then accepted an agreement to sell the bonds to a Boston, Mass. bonding firm—without bidding.

The bonds will be sold to Townsend, Dabney and Tyson, Boston bonding firm that purchased the original \$1,600,000 issue for financing construction of the sewer system.

John Sprague, board attorney, said after the levee board meeting "that in this particular instance there could be no bidding."

He said permission for the sale of additional revenue bonds had been approved by the boardholders at the original \$1,600,000 issue before an additional debt could be incurred.

"The board would not have been possible to obtain permission and then call bids on the bonds, Sprague replied."

Then we would have been unable to get permission."

# 4 1/2% Interest

Like the bonds sold last year, the additional \$200,000 in bonds will bear 4 1/2% interest, and will be sold in \$5000 denominations with an amortization period starting in 1970 and continuing through 1987.

William "Mike" Ebersold of Venice, member of the levee district board, questioned E. J. Wisley of the Horner & Shiffin engineering firm as to why the additional cost of bond payments would change the present minimum rental rate of about \$1.25 per month to be charged users of the sewer system.

Wisley said it would not. Ebersold asked if there would be any change in the rate if Colwellville eventually took over the system.

Wisley replied that such an instance would result in a reduction in the monthly rental rate.

Wisley explained that at the time the sewage disposal system was drafted, it was divided into four parts. When the original issue of \$1,600,000 in bonds was sold last year, he explained, three of these sections were under contract and prices were definite. The other, however, was based on an estimated price, which since has risen because of increased construction costs.

The board ordinance approved by the board sets out the original estimate of the sewage disposal program was \$2,501,250 of which \$500,000 was federal funds, leaving \$1,600,000 to be raised through revenue bonds. The \$500,000 federal funds, added to the original sale of \$1,600,000, makes this total delivery of the new issue to be made by March 15 under the sale agreement.

# Percy Urges GOP Woo Democrats In 1966 Election

Charles H. Percy, Republican candidate for the U. S. Senate from Illinois, told a Lincoln Day dinner audience of 1100 persons last night at Alton that Republicans will lose this year's election if they do not make the effort to "win over and welcome independents and Democrats to our ranks."

Percy was principal speaker at the "dinner meeting" at which U. S. Senator Everett M. Dirksen originally was scheduled to talk. Dirksen cancelled the engagement because of the press of matters in Washington. More than 200 persons from the Quad City area attended the affair.

The senatorial candidate discussed himself as a "progressive Republican," and urged Senator Dirksen "who led the fight for the most progressive legislation in the Civil Rights Act of 1964."

He urged Republicans to "pursue the vote of every independent and Democrat" in Madison county. He told the audience that Republicans "must not merely tolerate progress, we must become change champions. What counts is not what we are against, but what we are for."

The dinner meeting was held in the Mineral Springs Hotel and was attended by State Rep. Ralph Smith, who introduced the speaker; James Rowe of Jacksonville, candidate for state treasurer, and Les Jones, Florio Gora candidate for congressman of the second district. Dr. E. F. Buzan of Alton was chairman of the meeting.

# Amvets Post 51 Plan Events for February

Plans were completed last night by Amvets Post 51 for a "St. Valentine's Day" party at 8 p.m. Saturday, a family night affair on Saturday, Feb. 26, and an April 11 visit by touring dignitaries of the Amvets national and state organizations. Post commander William Webb presided and 25 members attended.

Rebuilding the post home at 5100 Lakeview drive is now progressing. Joseph Wickham, vice-commander reported. Projects to revitalize the club buildings and grounds were started this year at an estimated cost of \$2000, with work being done on a voluntary basis by the members.

Wickham informed the group that 40 large trees had been removed and work was continuing on installation of a new tile floor, ceiling and paneling. Those working on the project are Richard Reinhardt, chairman, and James Waddell, Russell Robinson, Ben Sanders and Cy Walker.

A "King and Queen of Hearts" will be selected at Saturday's party, which is to include entertainment, dancing and a pizza supper, under the direction of Mrs. Dolores Robinson, auxiliary president. The auxiliary also is in charge of plans for "family night," to be held at 5:30 p.m., Feb. 26.

Preliminary arrangements were made for the April visit of the Amvets National and State commanders and their staffs, with a banquet to be given in their honor. The officials were invited to visit the local post during their annual nationwide inspection tour.

# Five Injured In Area Crashes

Three men were injured in three of 18 traffic accidents reported by the Quad-City authorities since Monday. Three of the injury cases were of a minor nature, but two men hurt in a Madison crash last night were reported only in fair condition Tuesday.

Three men were injured, two seriously, in a head-on crash of two autos in the 900 block of State street, Madison, at 7 o'clock last night.

Taken to St. Elizabeth Hospital by ambulance were John Bart, 25, of 338 E. Redwood street, Venice, driver of one car; Ivory J. Reed, 56, of 1128 Logan street, Venice, driver of the other car, and Danny Poston, 17, of 61 Grenzer Homes, Madison, a passenger in Reed's car.

Poston was treated for multiple cuts and abrasions to the head and scalp, requiring 16 sutures. He was admitted and reported in fair condition. Reed suffered cuts about the mouth and the loss of teeth. Madison police said Reed will be charged with traffic violations.

## Driver Injured In Area Crashes

Symcek was admitted to St. Elizabeth Hospital with pains to his left shoulder and back.

Dorothy Wallace, 49, of 3144 Myrtle avenue, complained of dizziness and headache after a crash with a 1965 Ford, driven by Helen Wilson, 2321 Washington avenue, at 5:55 p.m. Tuesday at 21st street and Madison avenue. The Wilson woman, who had observed a stop sign at 21st street, was charged with failure to yield right-of-way when a control is present.

# \$200 Expense Bill Of GC Assessor Sues Under Fire

The first \$200 expense allowance for newly-elected Granite City township tax assessor Jayson Mitchell, was the subject of a Monday night as the city council met as the town board of auditors, but two motions of the assessor created the allowance to go to a vote. It will come at the Feb. 21 meeting.

The \$200 expense, granted to Barton by a 10-6 vote of the council last Dec. 6, was attacked by Aldermen Rutledge and Sternberg. Alderman Meierle, the only alderman absent for the Dec. 6 vote, said he was not pleased with the breakdown submitted by Barton, and suggested it be referred to the Finance committee for further study.

Alderman Johnson's motion for deferral halted the debate, but not before several aldermen had aired their views.

## Questions Depreciation

Alderman Rutledge, chairman of the council's Township committee, said that although \$100 amount set by Barton for automobile depreciation was "out of the question," he was not sure as to the assessor to use his full-time for township business. He called for a separation of the assessor's duties and a committee time to give it further study.

He was answered by Alderman Nomm, who said the council had voted to give the assessor a \$200 allowance and that made it his right for the assessor to claim.

Rutledge pointed out the assessor's duties, but that the bill submitted was only for \$200.

## Barton's Comments

Barton was not present at the council meeting.

He told the "Press-Record" he followed after his auto crash in the city of Madison, where he was accompanied by the police. He said he was not hurt, but he was shaken up.

In answer to a query on the \$100 auto depreciation issue, Barton said he also is in the used car business and drives various autos on the assessor job. "If I rented an auto, it would cost me that much or more," he said, "I actually saved me money this way."

## He Said \$200 Expense Bill Included

He said \$200 expense bill included \$8 for use of home telephone; \$25 for meals; \$55 for gas; oil and auto maintenance; and \$20 for miscellaneous expenses.

Sternberg was more vigorous with his protests.

He said that Barton was "asleep at the switch" last year and did not seek a pay increase. He said he was not going to act on it, so he asked for the expense allowance to be increased from the \$30 to \$200.

Legal Opinion

It stated—"Travel and transportation expenses do not mean that the assessor should be paid for expenses after reimbursement of expenses actually incurred in performance of his duties."

The opinion further stated that the township supervisor has the responsibility of handling township funds and should require an itemized account of expenses incurred by the assessor for travel.

This accounting should be submitted to the supervisor and then to the board of auditors' meeting.

Barton was eligible for a salary of \$10,000 if he had made application to the town board (city council) prior to Dec. 1-30 days before he took office on Jan. 1. However, he missed the deadline and his salary remained at \$780.

"He did a great job of politics," Alderman Sam Whitmer remarked Monday night.

He said that the assessor's expense allowance, Barton will receive a total of \$10,060 a year.

## Presiding Officer

In other town business, the town board (city council) called upon Atty. William Beatty, who was substituting for Schooley, to have a written opinion prepared to determine if it is proper for the mayor to serve as the presiding officer when the council meets as the town board.

Bills for the township given approval amounted to \$780 for general assistance and \$1621 for town purposes.

The monthly financial report submitted by Supervisor W. H. Bauer showed a Jan. 31 balance of \$86,690 in the relief fund after disbursements of \$13,364, and \$18,626 in the town fund after disbursements of \$3036.

## Patrol Car Damaged

A police patrol car driven by Officer George W. Harro, Jr., 4303 Kirkpatrick Homes, struck a utility pole as he turned left into the alley behind the 3400 store lot, 20th street and Madison avenue, at 12:10 a.m. Tuesday. The left front fender was damaged.

# GC Civil Defense Council Studies Warning System

New appointees to the Granite City Civil Defense Advisory Council unanimously proposed city-wide public warning system during this year's initial council meeting, held Tuesday at civil defense headquarters, 1411 N. Madison street.

The plan also received approval late last year from members of the previous board.

Details on the proposed new system were not disclosed. However, a three-man committee named to discuss the matter with Mayor Donald Partney and City Controller John Doobier, prior to its presentation to the city council.

Comprising the committee are Fourth Ward Alderman Paul Rutledge, Third Ward Alderman Clyde Boyd and Donald Adams, all recently appointed to the CD council.

Victor H. Koenig, Granite City CD director, described overall organization of the city's local group, relating its functions to the federal and state CD programs. He reported on the city's current status of the local fallout shelter program; and financial and administrative matters.

Council members agreed to meetings, with special sessions called by the director on matters of general policy, affecting the community as a whole.

Others present were Howard Stoppok, Paul Lichtenberger, Rev. Paul Surbey and Assistant Police Chief Floyd Jeff.

## Car Runs Into Hole; Sewer Cave-in Reported

A car driven by Lester Sherry, 1150 E. Washington, was crossing 16th street at Cleveland highway, causing damage to the front, at 11:15 a.m. Tuesday. The street department was notified.

The department also was informed of a sewer cave-in in the area between 16th and 18th streets at 2:30 a.m. today. The rain was blamed for the faults.

On Jan. 24 and Tuesday, it was reported Tuesday morning. It was not licensed plates.

Jack Hayes, 2329 Denver street, reported at 4:20 p.m. Tuesday that a white coupe, a 1965 two-door auto was stolen while it was parked during the day on the street between 16th and 18th streets at 2:30 a.m. today. The rain was blamed for the faults.

# Scout Adult Leaders Praised by Wilkins

The 168 Scoutmasters, Cubmasters and explorer advisors in the Granite Mound Council of the Boy Scouts of America have been cited as "among the most dedicated and volunteer leaders in our area today" for boys eight through 18 years of age.

The statement was made by George T. Wilkins, the council commissioner, as an example of the scout council's emphasis on carrying out the Boy Scout theme of "Breakthrough for Youth."

Wilkins has been active in Scouting for over 40 years and is a past president of the council and holder of the Silver Beaver Award. He has been a district chairman, council organization and extension chairman, camping chairman and has served as a member of the Region 7 camp inspection team.

The former state superintendent of public instruction, is an associate professor at the Southern Illinois University-Springfield campus and is currently serving as chairman of the fund drive to erect a religious center on the campus.

"Scout leaders—and the other men who assist them in Scouting—make it possible for boys to develop into good citizens, strong in character, healthy in body, skillful with their hands, keepers of the peace, and ready to be of help to other people," Wilkins said.

"Our communities owe a great debt to these volunteers who give of their time in order to help our future community leaders grow strong and tall."

"Today, more than ever before, we need men of character dedicated to our American way of life. We need the opportunity for developing a strong leadership," Wilkins said.

# Scout Expansion Needs Outlined to Rotarians

Granite City Rotarians Tuesday heard a Boy Scout report by Cahokia Mound Council Executive Eugene Coe, who stressed the need for manpower and resources to extend scouting to older residential areas of the Quad-Cities.

It is hoped to provide units for 40% of the available boys, Coe said. But even to maintain the present 38% level, in the face of

population gains, the program must be expanded substantially, he asserted in asking Rotarian members to assist.

President William Hoedebecke said funds contributed by the club have been placed in a trust for expansion of a hospital in India. Final plans were made for a "ladies night" Valentine dinner party at 7 p.m. Saturday at the Lewis & Clark restaurant.

BOY SCOUT WEEK observance this week in the Quad-Cities stresses a "Breakthrough for Youth" theme.

The breakthrough involves provision of a quality scouting program and establishment of sufficient units to serve the growing boy population.

The 168-unit Cahokia Mound Council is headed by President A. P. Steinhauser, who has made public the following message by President Lyndon B. Johnson to the 5,700,000 present members of the Boy Scouts of America:

"The story of scouting reflects America's vitality of spirit and generosity of heart. It represents 65 eventful years of service to progress and achievement, and its hero, the Boy Scout, continues to be a living symbol of our aspirations and hopes for a better world."

"Over 40 million Americans have found scouting to be a rewarding experience. And its many salutary programs have often been the springboard to their success."

"The role of the volunteer leader, so indispensable in our time, has had in scouting a ready testing ground. It has served to develop in our youth the qualities of mind and character which in years ahead will enable them effectively to guide the ship of state."

"In observing Boy Scout Week, you dedicate yourselves to the high principles of the Scout Oath and Law. And you renew your determination to secure for every American boy the opportunity of scouting membership."

"I salute your desire to share in the building of the Great Society, and I especially applaud your efforts to 'Keep America Beautiful.'"

"Honor, integrity, and devotion to your country have made you responsible citizens. And they have made the story of scouting a genuinely American story."

### Op Art—Better With Eyes Closed?

A physicist whose specialty is optics has proposed that artists close their eyes for new inspirations, the Press-Record learns from the American Institute of Physics.

Dr. Gerald Oster of the Brooklyn Polytechnic Institute, says that "phenomenes," the hallucinatory figures that seem to glow under the eyelids just before sleep comes, are ideal candidates for optical Art.

"Op," as it is popularly known, is an eyespeaking experience.

Three-dimensional projections, color, and layers of overlapping curves that change and whirl in space are used to stimulate a variety of responses in the viewer. The effects range from elation to nausea.

Dr. Oster's idea that phenomena may be added to the Op artist's arsenal is sure to provide the physics involved in Op, the physics involved in Op, and a suggestion that some day artists may tell computers how to produce art were published in the research journal "Applied Optics."

### Levee Board Minority Making Its Views Known

Past complaints about the East Side Levee Board often have involved allegations of "rubber stamp" adherence to politically-determined policy.

Now an attempt has been made to literally establish a rubber stamp policy by the board, which has three check signatures needing to be authentic.

Such a plan vests too much power in the president, who is only one of five elected trustees in the board, and it is not clear how the board is to be held accountable for its actions.

Quadrants Grant and Ebersold were right in blocking the proposal, which they had not been given an opportunity to study prior to last week's meeting. We hope they keep up the good work, and that local political leaders seek a lasting solution to the levee district representation problem—too much power vested in the East St. Louis city hall machine.

### But We Wouldn't Want To Live There

Moonshot may be mythical, judging by Luna 9 photographs, which appear to indicate that the surface of the moon is hard, pitted and barren to an extreme degree.

This word of a probable firm landing area was received about the same time that Dr. Charles Berry, U. S. astronautics chief doctor, was confirming that a proposed 14-day, pre-1970 flight to the moon is still in the planning stage.

Astronauts Borman and Lovell came through their two-week space trip in fine shape, although they had been unable to remove their pressure suits. Dr. Berry feels they would have been over-fatigued. He also is sure that a future spaceflight provide more room to move around.

Evidence continues to grow that earth-to-moon—and, hopefully, moon-to-earth—voyages will actually be accomplished within several years. But the more we learn about the moon's "vast wasteland," the more we become convinced that "it may be a nice place to visit, but we wouldn't want to live there."

### Let The Record Speak

We may be somewhat prejudiced on the subject, but we have long felt that the Quad-Cities have more than the normal share of beautiful and charming femininity. (No, we aren't running for public office.)

Having said this, we'll let the record speak for itself in proving our point. Metropolitan area Junior Achievement queens in 1956, 1960, 1964 and 1965; the candidates from the local JA center.

### Transfer Fee Can Be \$5 or \$1000

Q. My wife is retired and I want to sell her stock. I am selling and re-purchasing would be about \$13,000 in a growth mutual fund and plan to sell it and put the proceeds into another fund managed by the same firm. I would like to know if I would have to pay a \$5 or \$1000 transfer fee. Does this accomplish for me?

A. No, it certainly does not. Check with the management of the fund you now hold and I'll practically guarantee you'll find that by paying a fee of \$5 you can shift your investment into either of the two other funds managed by the same company. Both are income funds and can provide you with a flat withdrawal program such as you signed himself "Granite City."

He also stated, "We have a good mayor and let's get behind him and move forward to a better tomorrow." Well, let me tell you something, and I'm just one of hundreds. A lot of us were behind him—a long way behind him—the day he went to a certain place in Granite City where he was to indirectly bring in votes.

Who did he let go forward? Scams from out-of-town. He told them to go through the picket gates. There are pictures of this to use for future reference. Bring on the election!

I will agree with the voices of the people, regardless of political party.

What will it take to restore certain aspects of life to Madison? Here are a few suggestions: Handle promotions in the post office on a merit and seniority basis, not solely on political basis.

Hire policemen primarily to bring in law violators, not on political basis to indirectly bring in votes.

Allow groups to organize without being infiltrated by political parties. There are pictures of this to use for future reference. Bring on the election!

### Who Pays the Generous Piper?

(Second of a series)  
As noted in the last issue, federal aid payments to state and local governments have more than tripled during the past decade—and the end of this trend is nowhere in sight.

What's wrong with that? First, it puts the public administrator in the untenable position of trying to serve two masters—their own state legislature and the federal bureaucracy.

Second, it encourages local irresponsibility; the less the people of each state use their own resources, the more federal money they get.

Third, reliance on federal funds makes it difficult for the states to shift their own financial resources from one activity to another in response to changing needs at the state level.

Fourth, states must submit a long time for federal appropriations, whose availability is by no means certain before they can plan their budgets for grant-in-aid programs.

Fifth, such grants can distort federal aid budgets by forcing the appropriation of more money to programs than would otherwise be the case, with the further danger of threatening any necessary state and local functions with financial starvation.

Sixth, in the cases of colleges and universities specifically, federal aid payments went back to the same states where the money had been collected in federal taxes.

It is said that forest creatures lose the ability to fend for themselves when they get used to having men feed them. In view of the growing number of handouts from Washington, could the same thing be happening to man himself?

News From The Files

GRANITE CITY PRESS-RECORD

FEBRUARY 11, 1916

The Pleasant Hill Glee Club turned out with their sleighs, in sending to call on Mr. and Mrs. D. Brinkhoff and family, who are members of the club and reside in the prairie. While on their way they had quite a few disagreeable experiences.

First they helped to extricate several autos that had stalled by the roadside in the snow drifts, considering themselves lucky when they had regained their seats in their sleighs that they had not had the same luck at the tourists.

All then went well until they encountered a stretch of cinder road, when they wished they had the autos. After making several attempts, they succeeded in getting off the cinder road, but not until they were overturned in the snow.

After a hasty examination, it was found that no one was hurt. The accident had been on a cinder road, and it was "too many" wraps.

When they reached their destination, a royal good time was had. The sleighs were left at the hotel, and Mr. and Mrs. Brinkhoff royal entertainers.

Manager Gray of the Washington theater announced this morning that the great moral play, "The Good Girl," which is running in the large cities at present, has been secured for the Elks' Minstrel Show.

Frank Lester of Granite City and Miss Marie Mewes of Madison were awarded the prize for the best two-step at Assembly Hall when the A.A.O. Club dance was given.

## Deficits Develop in GC General Fund

Granite City ended January with deficits in six of its 17 general fund accounts and prospects of deficits in several others by the end of the month, according to a report to the city council Monday night by Treasurer E. The treasurer's report showed deficits have been incurred in the pumping station account, \$1,341; general government account, \$953; city hall, \$381; humane department, \$113; contingent, \$218; and school crossing guards, \$892.

The police department account will run into a deficit at the end of this month since it had a Jan. 31 balance of only \$1540. Police department expenditures in January were \$28,208. Expenditures for that department usually runs about the same each month. The police department had a total available funds of \$28,508 for the year and had spent \$27,968 by the beginning of this month.

Robert Stack of Granite City is one of seven Illinois Wesleyan University chemistry students who have been using advanced research equipment at the Argonne National laboratory near Joliet during the January short term.

Dr. Wendell W. Hesse, assistant professor of chemistry at Wesleyan, said "we've been trying to incorporate visits to the Argonne laboratory into chemistry classes for three years, but we can't take the students out of other classes. The new short term of only one course gives us the opportunity to do this." He said he expects the program to be expanded next year.

## 'Y' Junior High Program Attracts 140; New Band Set

About 140 junior high school students danced to music by "The Teen Beats," a local band made up of Prather junior and Granite City high school students Saturday in the YMCA Teen Town lobby.

The band was composed of Charles Collins, vocalist, on drums, Roger Belshe on the organ and Nathan Bailey and Larry Purle on electric guitars.

During the "Saturday at the Y" program, youthful deejays Mike Vaughn and Sue Neuman interviewed students on favorite singers and bands. A case of soda and a popular record is given to each student interviewed.

This Saturday "The Travelers," another Prather junior high band, will be featured. The group has played for private parties and school dances.

The junior high club program also gets underway Saturday with Mrs. Almida Haynes and Mrs. Margaret Vrelick beginning work with their ninth grade Tri-Hi-Y club. Students interested in forming their own clubs may contact Mrs. Bonnie Fuller or Dave Williams at the "Y."

Membership in the "Y" is not compulsory to be in a club program but a daily membership is required.

The Saturday program is held from noon to 4:30 p.m. each week. Members are admitted without charge and non-members are charged 25 cents.

## Continuing Need for More Engineers Cited

There are now more than 500,000 individuals in the United States working in engineering jobs, according to reports from the Southern Illinois University school of technology, Carbondale.

What's more, there are excellent job prospects for an additional 35,000 engineers to be graduated in June.

Richard Howe, a member of SIU's engineering faculty and adviser to the SIU student chapter of the Illinois Society of Professional Engineers, said in a campus interview that today's engineers fill posts in industry, education and research, as well as in numerous government agencies and in private practice.

During National Engineers' Week, Feb. 20-26, Howe said, many high schools throughout the area will be visited by professional engineers who will hold career conferences and tell students more about engineering opportunities.

With the need for well-trained professional engineers increasing, he said, the SIU school of technology now has an engineering enrollment of more than 600 students. The school also includes Southern's programs in engineering science, engineering technology and technological education.

Howe said SIU has been at the forefront of a contemporary move toward a more functional approach to engineering and technological education, "designed to meet the needs of students whose careers will extend into the 21st century."

Fire losses in Granite City dropped sharply in 1965 from a 1964 total of \$563,595 to \$188,012, fixing the city's per capita fire loss last year at \$4.18, according to a report filed with the Granite City council Monday night.

The 1964 per capita loss, based on the city's official census figures of 40,703, was \$11.56.

According to Fronabarger, the Granite City fire department

answered 493 fire alarms during 1965, compared to 518 in 1964. Last year's calls included 177, or 35%, to building fires, 78, or 15%, to automobile fires; 104, or 21%, to rubbish fires; 13, or 2.3% to inhalator calls; 25, or 5% to industrial fires, and 66 or 14.7% to all other types of fires.

The report showed that four firemen were injured in fire calls during the year, with no injuries at fire houses. Three persons were injured in fires.

The loss on out-of-town fires amounted to \$13,350, Fronabarger reported. He said the loss on industrial fires is not known.

Nine alarms out of ten calls were answered during 1965, compared to 15 for the same purpose in 1964.

## State License Plate Deadline Next Tuesday

Five days remain for motorists to start displaying their new state motor vehicle license plates, as the Feb. 15th deadline draws near.

Secretary of State Paul Powell reminded motorists that operators of vehicles bearing 1965 plates after midnight on the 15th will be subject to arrest at that time. He emphasized that the deadline is for having the plates mounted on the vehicles, not merely having applied for them.

Powell continued to say that an increase in sales of about 250,000 plates has been noted over last year, and with this increase, there can be no guarantee that the plates applied for now by mail will reach the applicants in time for the deadline.

#### Final Date for Wheat Loan is Feb. 28th

Farmers in Madison county now have more time to decide on the advisability of obtaining a loan from the U.S. Department of Agriculture. The county ASCS office at Edwardsville announced today that general producers of price supported commodities will now be able to secure a loan on eligible grain from the time of harvest through the end of the month prior to the loan maturity date. Rogers announced that the final date for filing for a 1965 wheat loan is Feb. 28 and that the loan maturity date for 1965 wheat is March 31.

#### IRS Requirements On Dividends and Interest Outlined

The Internal Revenue Service said today that payers of dividends and interest income who have not requested taxpayer identifying numbers from stockholders, depositors or other income recipients, may incur penalties upon continued failure to comply with the law. The IRS said that compliance with the dividend and interest reporting requirements has generally been good, but packets of noncompliance still exist. The law requires business firms to file Forms 1099 and 1086 by February 28, 1966, on dividends or interest of \$10 or more paid or credited to an account in calendar year 1965, and to furnish statements to payees. The payments reported to IRS must be identified by the taxpayer account number of the recipient. This reporting requirement also covers payments of rents, royalties, pensions, annuities and certain other types of income when they amount to \$600 or more a year. The IRS said that paying institutions, trade organizations and other business groups have conducted extensive educational and informational campaigns on interest and dividend reporting requirements since they became effective in 1963, and on the need for taxpayer identifying numbers. Results of the programs have been good, according to IRS, but additional steps must now be taken to obtain full compliance. Agents from the IRS office in East St. Louis are conducting regular office hours here to serve Quad-Cityans each Monday from 9 a.m. to 4 p.m. The office is located on the third floor of the city hall building in Granite City. Telephone assistance is available at the East St. Louis office on other days.

## 'Remember the Pedestrian'—Alderman Says

A plea for "the forgotten pedestrian" during the snow removal operation was made during Monday night's Granite City council session by Alderman Moerlen of the First Ward.

Moerlen made his appeal as Mayor Partney outlined a proposal for future "digging out" after a heavy snow.

The alderman was irked over snowplow operations by the state highway department along Edwardsville road last week.

"I know of an elderly woman who had cleared the walkway in front of her home and hadn't even got back inside her house when a snowplow came along and buried the cleared sidewalk under a three-foot snow bank," he said.

The alderman pointed out the city and the state had forgotten the pedestrian and cared only for the movement of vehicles after a storm. "All we seem to care for is the person behind the wheel of a car."

"Children use the sidewalks to get to school, and people along Edwardsville road also find their driveways completely blocked by banks of snow left by the plow," he said.

Mayor Partney's proposal calls for the Street committee and the city's traffic engineer and Street Supt. Warfield to confer on methods of snow removal and a prior-

ity listing for major thoroughfares.

**Train More Men**

He also suggested the street superintendent train additional men in the operation of highlift and grader machinery to permit an around-the-clock schedule when a heavy snow hits.
